(28 March 2017)

Food safety is Wellcome's top priority. We have confirmed that all of Wellcome's imported Brazilian frozen and chilled meat and poultry products are not from the 21 Brazilian plants as announced by the government. We have also sent our imported Brazilian meat products for laboratory testing; all of which were proven to fulfil the food safety and hygiene requirements and are safe for consumption. In view of this, Wellcome has resumed sales of these products at all stores.
